The listed companies are members of the Fabric Graphics Association and manufacture, hold the <sup>TM</sup> or <sup>®</sup> trademark for a fabric, or are exclusive distributors of the fabric. If both a distributor and manufacturer list the same product, credit is given to the manufacturing company. The specification accuracy is the responsibility of the manufacturer. For more detailed fabric information, please contact the companies directly. If you manufacture fabric substrates and desire to participate in future editions of the guide, please e-mail [jmschieffer@ifai.com](mailto:jmschieffer@ifai.com).

#### Reference Guide

- \*1 Product has been certified using test method B1, M1, or M2. Check company website to verify specifics.
- \*2 Products listed can be coated to NFPA 701 or are certified to NFPA 701. Check company website to verify specifics.
- \*3 The length of the fabric or graphics warranty depends on type of ink used for graphic applications.
- \*4 Recommended inks are represented by "S" solvent, "UV" ultraviolet, "D" disperse, "W" water-based.
- \*5 Green references environmentally friendly products and processes with replacement cycle.

Company Name	Trade name of fabric	Construction			Aesthetics
